

OWENS FARM PORK

From Tamworth hogs raised outdoors

The Tamworth is a heritage breed known for lean, tasty meat and the ability to thrive outdoors. We raise our pigs from birth until they are ready to eat. That way, we can ensure they are raised humanely every step of the way, and fed a nutritious, chemical-free diet. Our feed is custom-mixed for us from locally-grown, non-GMO-free grain balanced with an organic vitamin/mineral supplement plus fishmeal for complete protein. We never feed antibiotics, hormones, or growth enhancers.

OPTIONS AND PRICING

We sell *whole, half or quarter hogs* custom cut and wrapped at a USDA butcher. Whole or half hogs are custom cut: you choose how you want them cut and wrapped. The Quarter Pig Sampler Pack come in a predetermined selection of the most popular cuts.

WHOLE OR HALF:

The current price is \$4.95 per pound based on hanging weight – the step just before the meat is cut into roasts, chops, etc. Some hogs are bigger than others. For budgeting purposes you can figure on an average weight of 175 to 200 lbs. Thus, the uncured meat on a half hog would cost around \$450 to \$495 and a whole would be \$850-\$990. A half hog would put an average of 70 lbs of meat in your freezer, a whole hog around 140 lbs. Curing/slicing bacon and hams and making sausage incur additional charges. On an average hog, these are in the range of \$30-45 for sausage, \$20-\$30 for all the bacon, and \$20-\$40 for two hams.

Nitrate-Free Curing We do have the ability to use a nitrate-free cure in your hams and bacons Contact us directly if this interests you.

QUARTER-PIG SAMPLER PACKS

A Sampler Pack costs just around \$300. The price is based on \$5.50 per pound of hanging weight plus smoking and curing. We use a nitrate-free cure on our Sampler Packs. The average hanging weight on a quarter hog is 50 lbs, which yields 35-40 lbs of meat in the freezer.
